ABOUT US

Established in 2016, Delta E&C has rapidly affirmed its position as Vietnam's leading contractor in foundation and technical infrastructure construction. With a team of experienced engineers, specialized construction capabilities, and a strict quality management system, Delta E&C has expanded into the industrial construction sector – particularly FDI projects demanding high technical standards and fast progress.

A series of typical projects such as Innova R&D Center, Amphenol JET Electronic Components Factory, ShinZuShing Electronics Factory... clearly demonstrate Delta E&C's outstanding capacity.

Thanks to its professionalism and commitment to quality, Delta E&C has become a trusted partner of major corporations including Vingroup, Masterise Homes, T&T Group, Thanh Cong Group, TNR Holdings, along with many international investors.

Introduction to Delta E&C

As a member of DELTA Group – one of the leading construction corporations in Vietnam – Delta E&C was established on the foundation of innovation and high technical standards. The company specializes in providing comprehensive Construction Consultancy, Project Management, and Implementation services.

Delta E&C's operations are guided by its core value of Construction Quality, aiming to create sustainable development and long-term benefits for investors.

Uniting Group Strength - Asserting Unique Identity

With a solid foundation inherited from Delta Group, reflected through a systematic investment strategy in specialized expertise and advanced technology, Delta E&C continuously elevates its service standards. The continuous improvement of processes and application of modern technology ensures that construction solutions are always optimized for Schedule, enhance Quality, and maximize Investment Efficiency.

Delta E&C is committed to delivering products that meet high standards in Technicality, Aesthetics, and Economic Efficiency, with suitable solutions, competitive costs, and value that exceeds expectations. The philosophy of "Build with Conscience and Knowledge" from Delta Group serves as a guiding principle, helping Delta E&C always accompany clients, building solid trust and reputation in the market.

SERVICES

Industrial general contractor

Delta E&C undertakes the role of full Design and Build (D&B) General Contractor for multi-sector industrial projects (Electronics, Textiles, Mechanical Engineering, Logistics,...) and large-scale civil works (Hotels, Dormitories, Social Housing,...). Accompanying investors from the design stage to project completion, ensuring optimal operation.

General contractor for technical infrastructure

Execution of urban and industrial cluster infrastructure construction with high technical requirements, complex site preparation, and strict acceptance standards. Capability to deploy components simultaneously: internal traffic, drainage, electricity – telecommunications supply, fire prevention and fighting, wastewater treatment, and landscaping.

Foundation construction

A leading unit in the field of foundation construction for large-scale civil and industrial projects. We utilize an experienced technical team and modern machinery systems to ensure safety, precision, and construction quality.

Equipment business

Delta E&C provides a variety of construction equipment from the world's leading brands, meeting strict requirements on technology, durability and operational efficiency, serving domestic and foreign projects.

Legal & Investment Consulting

Providing full package services: Design consulting, preparation of EIA documents, fire fighting and prevention, feasibility research reports, licensing procedures, and application for the establishment of industrial clusters. We ensure legal compliance and minimize project implementation time.

1 VISION, MISSION, CORE VALUES

MISSION

Creating projects that exceed client expectations; contributing to national infrastructure development; enhancing the well-being of our employees; and fulfilling our social responsibilities to the community through meaningful and long-lasting values.

CORE VALUES

Conscience - Knowledge

Innovation - Creativity

Schedule - Safety

Reputation - Responsibility

Solidarity - Cooperation

Quality - Efficiency

VISION

Delta E&C is oriented to become the leading EPC Contractor in Vietnam according to international standards, developing across multiple sectors and fields, where construction execution plays a core role, creating a foundation for the stable and sustainable development of the entire system.

1

LEADERSHIP TEAM

*D*elta E&C gathers leading experts with extensive knowledge and prestige in the construction field. As the company's chairman and CEO of Delta Group, Chairman Mr Tran Thanh Vinh has gathered a team of high-quality personnel. They are intellectuals with professional ethics and success in life, passionate, enthusiastic, and dedicated to their work.

MR. TRAN MAI LE
Chairman - General Director

MR. PHAM NHU DOAN
Deputy General Manager
Construction

MR. NGO MINH HIEU
Deputy General Manager
Planning

MRS. TRAN THI SU
Deputy General Manager
Finance

MRS. TRINH THI KHANH
Deputy General Manager
Investment

*T*he Board of Directors at Delta E&C comprises leading experts from diverse fields who play a pivotal role in our development strategy. They inspire and build a professional and unified corporate culture. The close coordination among the leadership is the foundation for Delta E&C's sustainable success in major domestic and international projects.

*D*elta E&C's current leadership team is a harmonious combination of knowledge, long-term experience and youthful enthusiasm. Understanding the challenges and difficulties that the company faces, they have designed a flexible organization, developed new business directions and thoroughly applied the most advanced technologies to production activities.

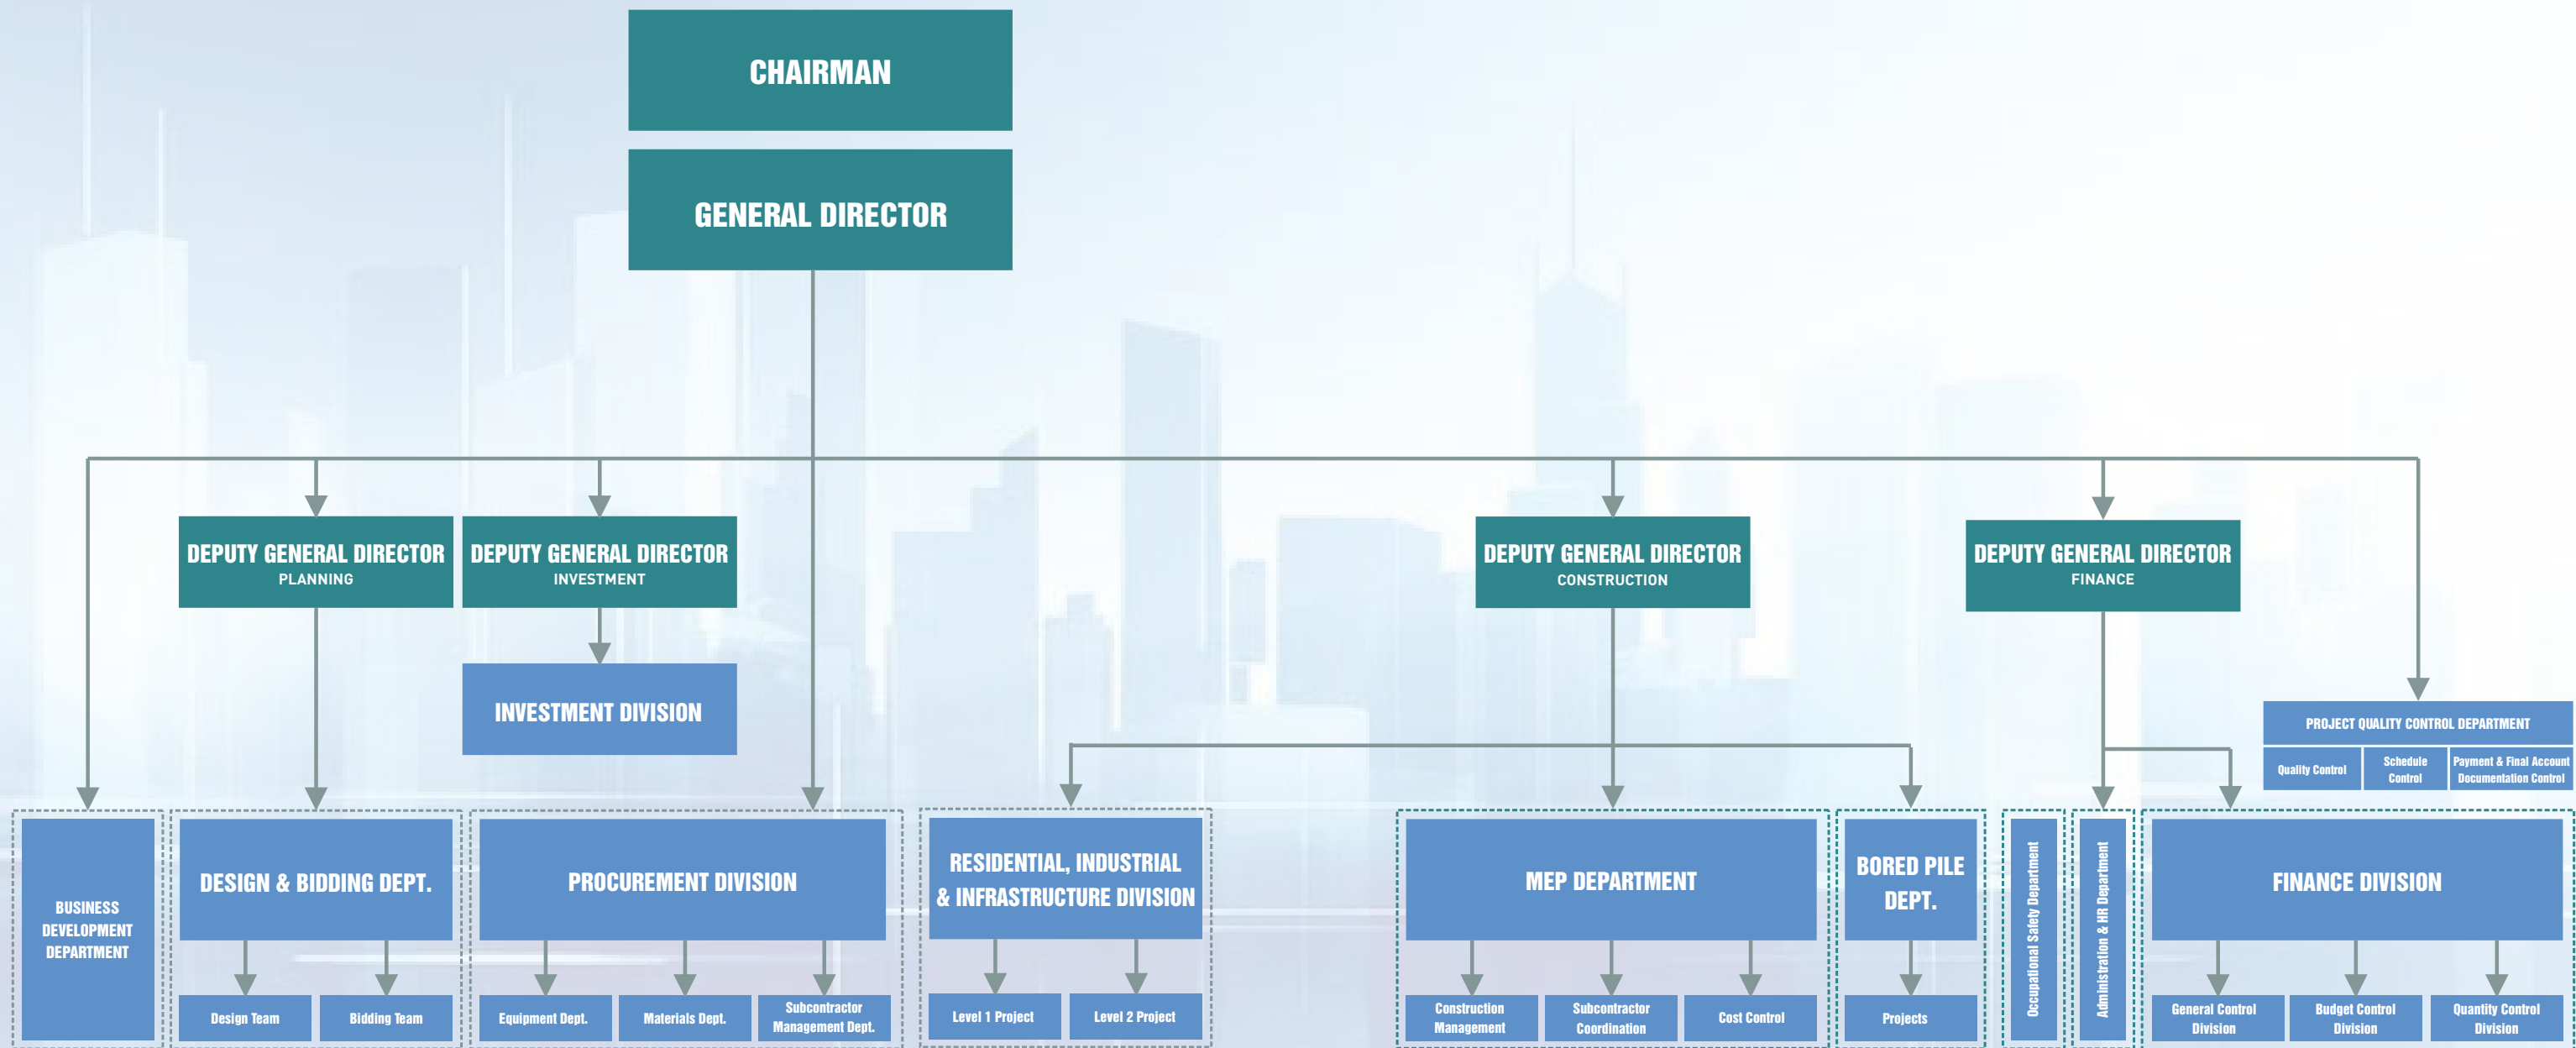

MR. PHAM VAN VINH
Design Director

MRS. BUI BICH NGOC
Market Development Director
(Chinese-speaking Region)

Management system

Safety-health-environment policy

HUMAN RESOURCES

With the criterion that success always comes from the human factor, Delta E&C with its advantage in training has selected elite human resources with the ability to think independently and work in teams in any working environment.

200++ People

Delta E&C's total staff

90% Human Resources

Attain undergraduate and post-graduate degrees

300++

Specialized equipment: locomotives, drilling equipment, cranes, excavators, diggers...

500++

Workers

At Delta E&C, every member plays a crucial role in shaping the quality and growth strength of the business. The spirit of proactivity, creativity, and responsibility is always encouraged, helping each individual and team achieve the highest efficiency in their work.

The team of experienced engineers and specialized personnel is the pride of Delta E&C, contributing to the creation of safe, sustainable, and uniquely marked constructions. The principle of "building with conscience and knowledge" is inherited and promoted by successive generations, cultivated through solidarity, a spirit of learning, and an unceasing aspiration for innovation.

EQUIPMENT RESOURCES

With the orientation of becoming an international standard contractor, Delta E&C's equipment is the pride of not only the company but also the Delta Group. Modern equipment types from developed countries in the world are invested and effectively operated by Delta E&C such as: Bauer bored pile drilling, XCMG, Liebherr, Gang-form system, aluminum formwork, Luffing tower crane... modern quality control equipment systems such as: Kodan, Osterberg... creating a position for Delta E&C to always be the leader in quality and construction progress.

No.	Name of machinery and equipment	Unit	Quantity
1	Drill	Machine	20
2	Crawler crane	Machine	14
3	Excavator	Machine	20
4	Ultrasound machine	Machine	09
5	Tower crane	Piece	08
6	Scaffolding	Piece	143
7	Formwork	Md	2000
8	Other equipment	Billion	250

Delta E&C is always committed to providing high quality products at reasonable prices, meeting all customer requirements, and continuously improving management systems to further enhance customer satisfaction.

Delta E&C not only strictly complies with the requirements of the quality management system but also fully updates the advanced management tools for the system. Up to now, Delta E&C has obtained most of the necessary certificates for all areas of the company's operations and business.

Applying BIM in construction management design, increasing investment efficiency, minimizing risks, increasing construction progress, and sharing information in real time.

LEAN MANUFACTURING control process in construction production. Improve productivity and quality of products and services.

The SCOR international standard supply chain operating model provides flexibility to increase company values. Meet the increasing and diverse needs of customers.

Applying PMI international standards in professional project management, ensuring a project management system is applied consistently globally. Bringing core values to customers.

2

HEALTH - SAFETY - ENVIRONMENT

The Delta E&C Board of Directors pays great attention to the labor safety and health care policy for workers and considers it the key to success in construction work. Safety work is realized through daily and hourly supervision and inspection. Employee awareness is always improved through continuous training. Workers' health and equipment are always checked regularly to ensure the criteria of Safety - Quality - Progress, bringing peace of mind to workers, contributing to the success of projects.

SAFETY BEFORE WORKING

GOOD ENVIRONMENT - EFFICIENT WORK

The working environment in the office and projects is always improved to meet the increasing demand for integration. The waste treatment and environmental protection systems are handled by standard systems that are invested in thoroughly and systematically. Management systems such as OHSAS, ISO 45001 are applied to bring Delta E&C's commitment to environmental protection.
